

BIOS Fall Semester Fees

If enrolled at RWU, please contact Kevin Hayden (Director of Study Abroad Programs; khayden@rwu.edu) for semester fees and payment schedule. If enrolled at URI, please URI's [Office of International Education & National Student Exchange](#) for semester fees and payment schedule.

Students not attending URI or RWU can enroll directly through BIOS and should email education@bios.edu for up-to-date semester fees. BIOS does not grant academic credit and students should contact their Academic Advisor or Study Abroad office to arrange academic credit for the BIOS Fall Semester.

Fees include room, board and tuition for the semester. BIOS provides full meal service in a cafeteria with both inside and alfresco seating. Rooms are generally twins with ensuite bathrooms. All lab fees and field trip costs are included in the course fees.

Each school assesses a fee for issuing academic credit and may also include a charge for transcripts, an off-campus study fee and an administrative fee. Please check with your institution's Study Abroad Office or Office of Education Abroad Programs for complete information. Airfare and personal entertainment expenses are not included in any assessed fees.

Please note: BIOS does not provide medical insurance. All students are required to purchase an overseas medical insurance policy and ensure that they have adequate medical coverage.
